

Kinase Screening Service

ChemPartner
Dedicated to LifeScience

What We Provide

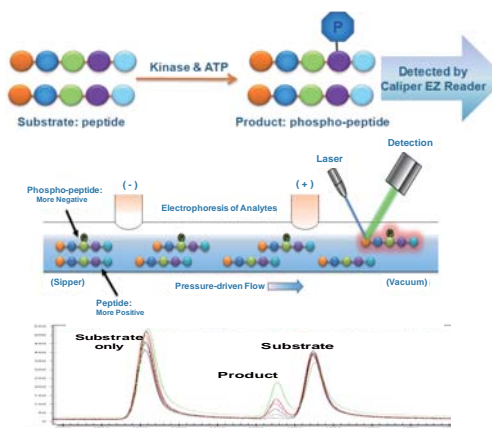

Multiple assay platforms:

- Caliper mobility shift assay
- Luminescent assay
- TR-FRET assay
- [33P] ATP filter binding assay

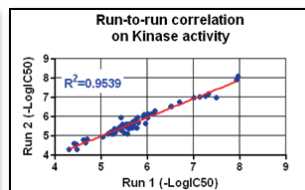

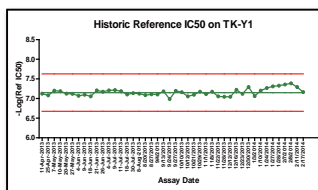

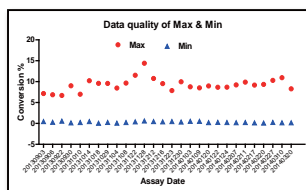

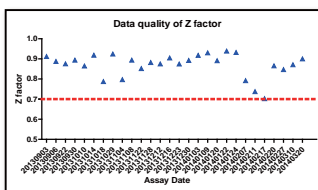

Broad service scope :

- High-throughput screening
- Lead optimization
- Selectivity panel profiling
- IC50 dose response
- Enzyme kinetics
- Compound mode of action

Assay Principle of Kinase MSA:

High Quality Data and Fast Turnaround Time
